## **EMPLOYMENT HISTORY**

---

### **Velitech IT Solutions**

**March 2022 – Present**

#### Web Developer:

- Developed and maintained multiple web-based applications using PHP, PYTHON, HTML, CSS, and JavaScript to improve user experience and accessibility.
- Ensured that web projects adhere to best practices and coding standards while maintaining the project goals.
- Collaborated with the design team to implement UI/UX designs into functional web interfaces.
- Worked with MySQL, MSSQL databases to manage data efficiently.
- Conducted regular testing and debugging to ensure high-quality and bug-free code.
- Assisted in providing technical support and maintenance for existing websites, ensuring optimal performance and security.
- Collaborated with business analysts and stakeholders to gather and translate functional requirements into technical specifications, resulting in accurate and efficient software solutions.
- Implemented security measures, including encryption and multi-factor authentication, to meet regulatory compliance standards.

### **IT Hunters**

**November 2020 – February 2022**

#### Web Developer:

- Developed websites from scratch using PHP, HTML, CSS, and JavaScript, ensuring high-quality user experiences and functionality.
- Leveraged CMS platforms such as WordPress, Joomla, and Shopify to efficiently manage and customize content for blogs, company websites, and e-commerce platforms.
- Improved website performance by optimizing loading times and reducing page sizes, optimizing SQL Queries.
- Participated in project planning and execution, meeting deadlines and delivering projects within budget.
- Actively participated in code reviews, providing constructive feedback to peers.

### **Wema Bank**

**December 2018 – September 2020**

#### Junior Website Developer:

- Utilized HTML, CSS, JavaScript, and various frameworks to create engaging and functional front-end interfaces.
- Conducted user training sessions to enhance IT literacy and productivity.
- Assisted in back-end development tasks, including database management and server-side scripting.
- Participated in code reviews and contributed to improving coding standards and best practices within the team.
- Collaborated with the team to design web pages for the Marketing Department, enhancing their ability to promote banking services effectively and efficiently.
- Worked on customer service application that improved productivity and enhanced customer experience by integrating a ticketing system, an online chatbot, and a survey form for feedback.
